PROFILE

Highly motivated and adaptable individual with a strong interest in exploring opportunities in the IT field.
Passionate about learning, growing, and taking on new challenges with a positive mindset.
Looking forward to beginning a career where I can contribute, learn, and develop professionally.

PROJECT

Group project2025

E-COMMERCE FAKE PRODUCT REVIEW MONITORING AND DELETIONS SYSTEM

Technologies Used:

- Html & CSS (Front – end)
- Java (JSP) (Back - end)
- SQL for handling Database

Description:

- The main objective of this project is to detect fake or spam product reviews and remove them from the system to maintain trust and authenticity in online platforms.
- The system collects product reviews from users and analyses the review content using predefined login and condition ,if a review is identified as fake it is automatically deleted from the system
